

The Tesla 12V battery is typically covered under the **4-year/50,000-mile Basic Vehicle Limited Warranty** as part of the new vehicle, rather than the 8-year high-voltage battery warranty. If it fails after this period, the replacement battery has a separate **1-year/12,500-mile parts warranty**.  [Reddit +4](#)

Key 12V Battery Warranty Details:

- **Coverage:** Covers premature failure, but not neglect, abuse, or failure caused by running out of high-voltage battery charge.
